

Dear James,

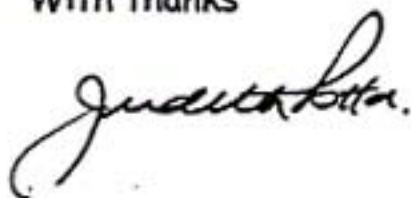

We are thrilled with the back yard reno stonework and the drainage system installed and look forward to seeing you again in the Spring finish up with the planting.

It was a pleasure working with you and your crew. They are a great bunch of people who work hard and evidently love their work.

They were all extremely conscientious and considerate of your clients and neighbours, keeping the worksites tidy during the project and removing unused & redundant material afterwards and this was very much appreciated.

I am glad I chose Aura to do this project for us and it was worth waiting until November to proceed.

With thanks
