

To Whom It May Concern:

RE: Aura Landscapers Ltd. (James Knaut)

In 1995 we employed Aura Landscapers Ltd. to landscape the yard at our summer home in Sylvan Lake. During the project we were **very impressed with the efficiency with which the crew functioned.** They came and left the work site with a minimum amount of disruption to my family or the neighbors. When the job started, numerous crew members arrived and the job was in full swing without any delays. **Completion of the job was on time and the results were far beyond our expectations.** Our Sylvan Lake neighbors and many others from other beaches have all raved about how beautifully the landscaping fits in with the surroundings and creates a beautiful and relaxing atmosphere. Many of our Sylvan Lake friends and neighbors have attempted to copy or re-create the same results that Aura Landscapers Ltd. has provided for us. Unfortunately, they have all been unsuccessful in achieving the artistic results that James Knaut has for us. Many companies are capable of planting trees and making patios, but **to create a truly special environment you benefit from the artistic talents of someone like James Knaut.**

My level of confidence in James Knaut is so great that I called James as soon as we decided to consider purchasing a lot and building a home in Elbow Valley. James help select our lot and building site in addition to assisting with house design and position as it relates to the surrounding yard. We are **extremely pleased with the landscaping results that James has achieved for us in Elbow Valley.** We commonly receive compliments on our new home from neighbors and friends but the compliments we receive about the landscaping are very flattering.

Without hesitation I can strongly recommend James Knaut and Aura Landscapers Ltd. for their job efficiency and fabulous results. They are certainly in a class by themselves. Although landscaping can be an expensive project, it has created beautiful environments for us and I feel it is **some of the best money we have spent.**

Yours truly,

Don Reikie
